In the classrooms...

Miss Cheney's 1st and 2nd graders have been enjoying their trips down to the garden and seeing their garden plots sprout. They finished their "I Am" poems and shared them with other classmates. They have continued working on their accelerated math packets and watching Cyberchase videos on solving problems. They loved working with 4-H. They colored pictures to go with The Berenstien Bears book they are reading. This week is Miss Cheney's last week before she takes leave to get married. When she returns to us she will be Mrs. Daugherty.

Mrs. Anderson's 3rd and 4th graders are doing their part to help the economy. They are adding more to the recycle bins and less to the garbage cans. They have been doing nifty crafts to re-use items that might not be recyclable. They made rings, crowns, and arm bands out of cereal bowl tops. The students contributed to garden projects by bringing items from home to use as planting containers that will later be sold at the Farmers Market.

Mr. Shermeta's 5th-8th graders are finalizing their business plans for our Growing Entrepreneurs Program by typing up formal reports in the media center. They have also been working hard preparing for their book reviews for Indiana Public Radio. This special event takes place Thursday evening 6-8 PM at Toyota of Muncie. The students are anticipating having their 4-H photography projects on display at the Delaware county Fair.

A Very Special Thank you!

We want to acknowledge a special thanks to Cardinal Health Systems Pediatrics staff. They donated sunscreen for the children to protect their skin on sunny days. Water to keep them hydrated, and band aids to heal unwanted wounds.

Mark Your Calendar....

July 5th MOMs will be closed in observance to the Fourth of July Holiday.

12 students will be participating in a Nature Connections excursion at the Minnetrista Cultural Center during the next two weeks.

July 22nd will be MOMs "Summer Shindig!" This is the last day of the summer program. Many events are planned including an open house. Watch for more information in the coming weeks.

**BUILDING THE FUTURE
YOUTH BY YOUTH**
